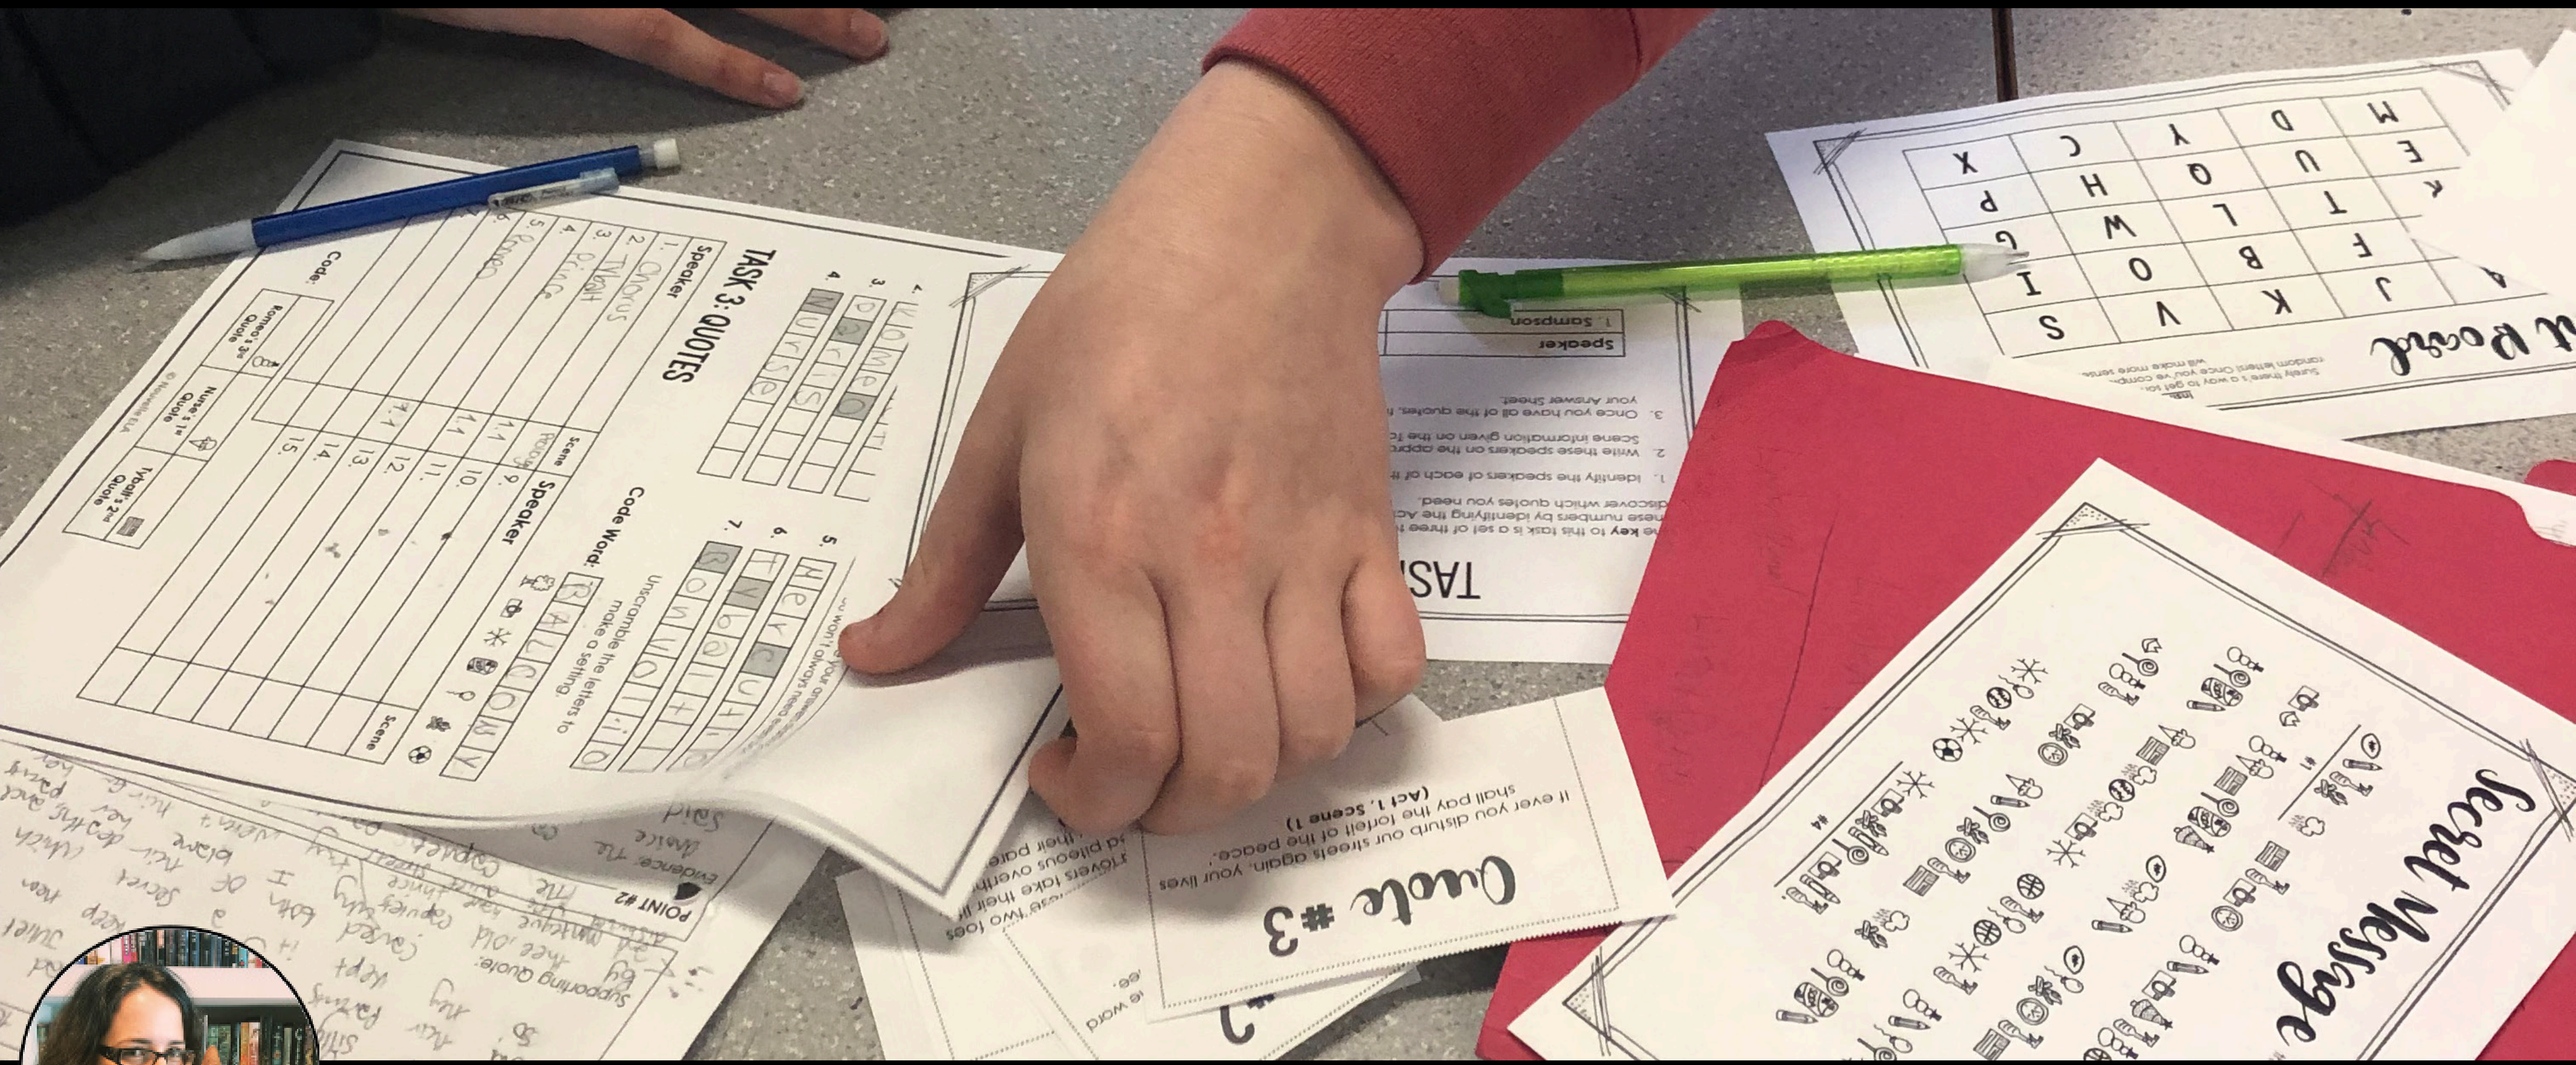
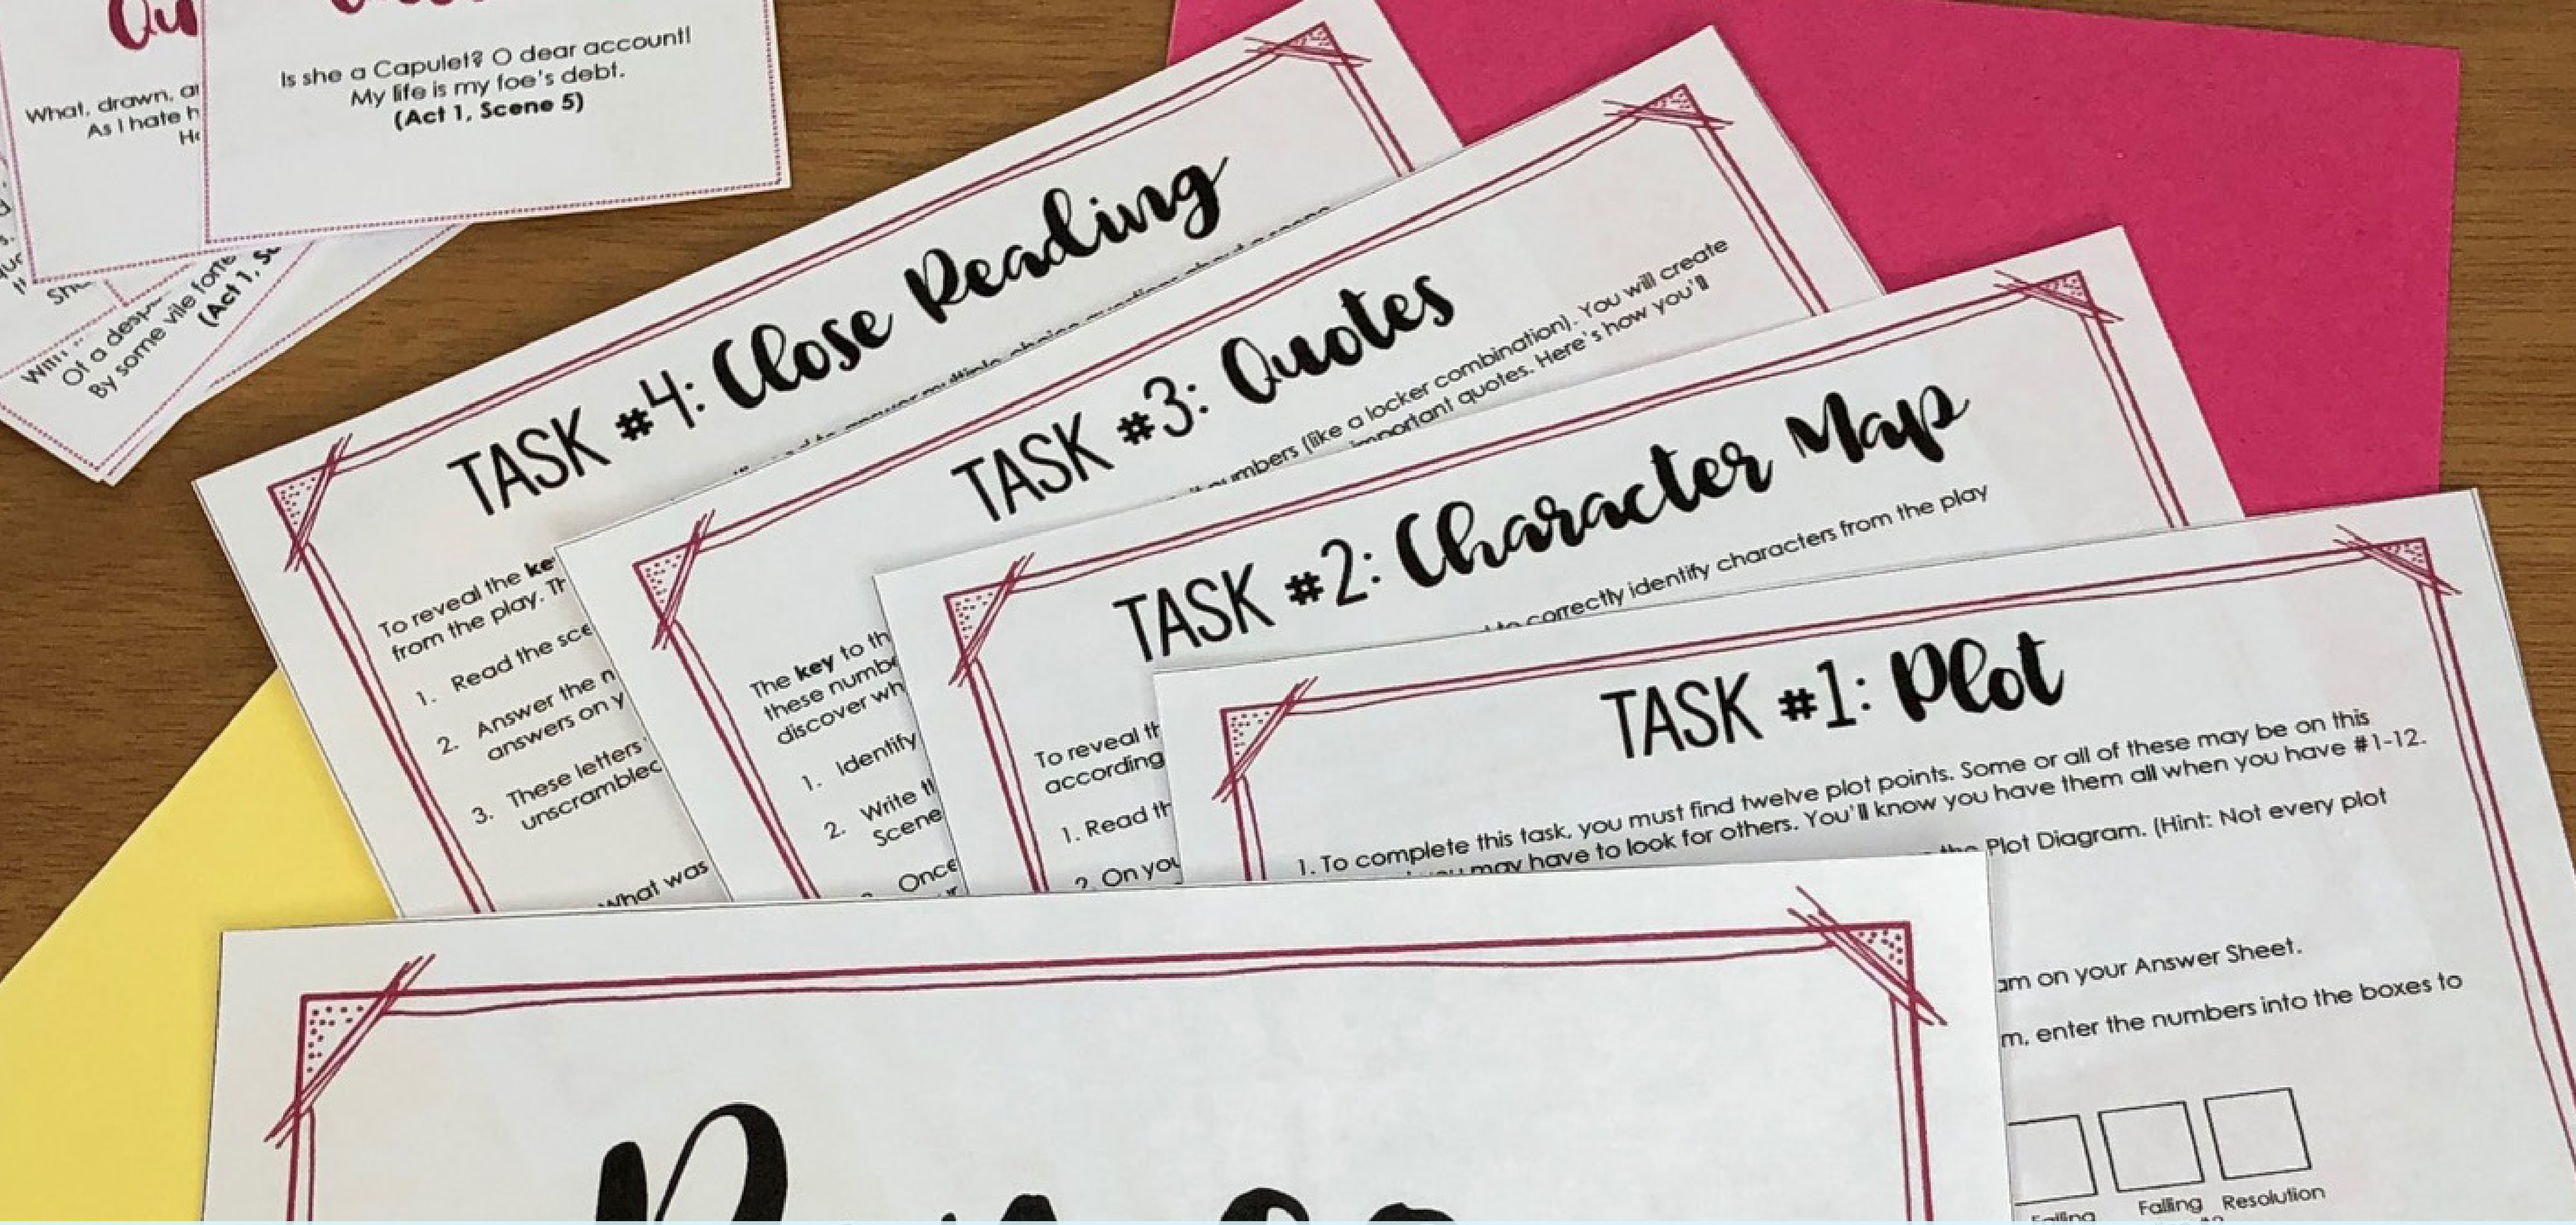
Romeo & Juliet ESCAPE ROOM

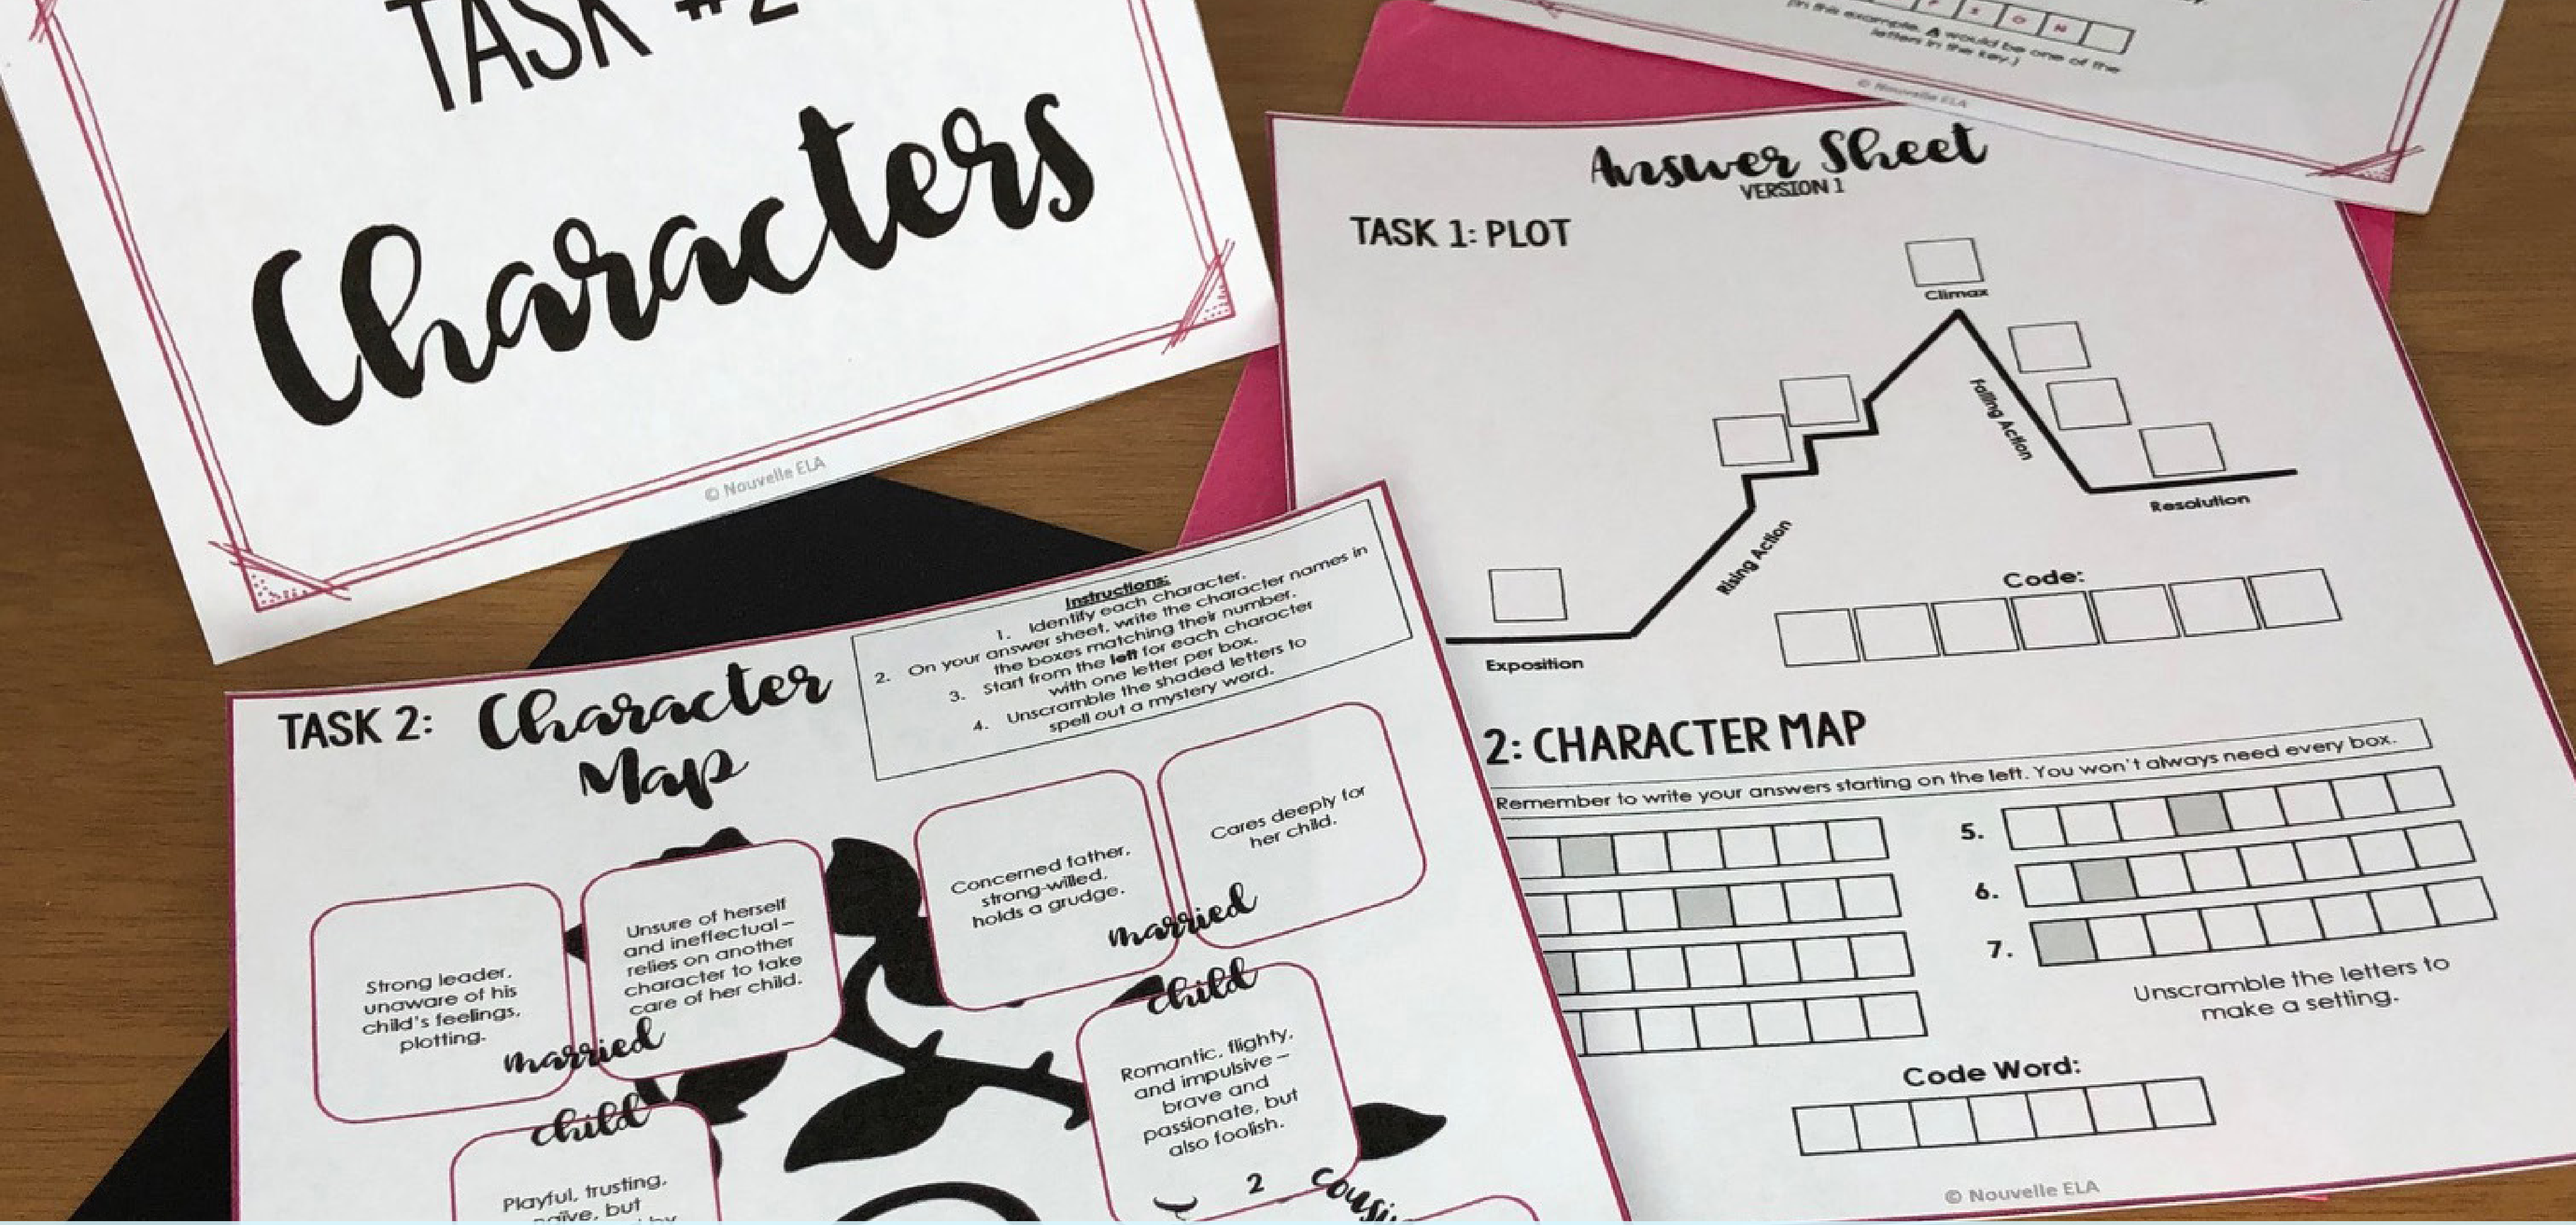


COLLABORATIVE REVIEW ACTIVITY

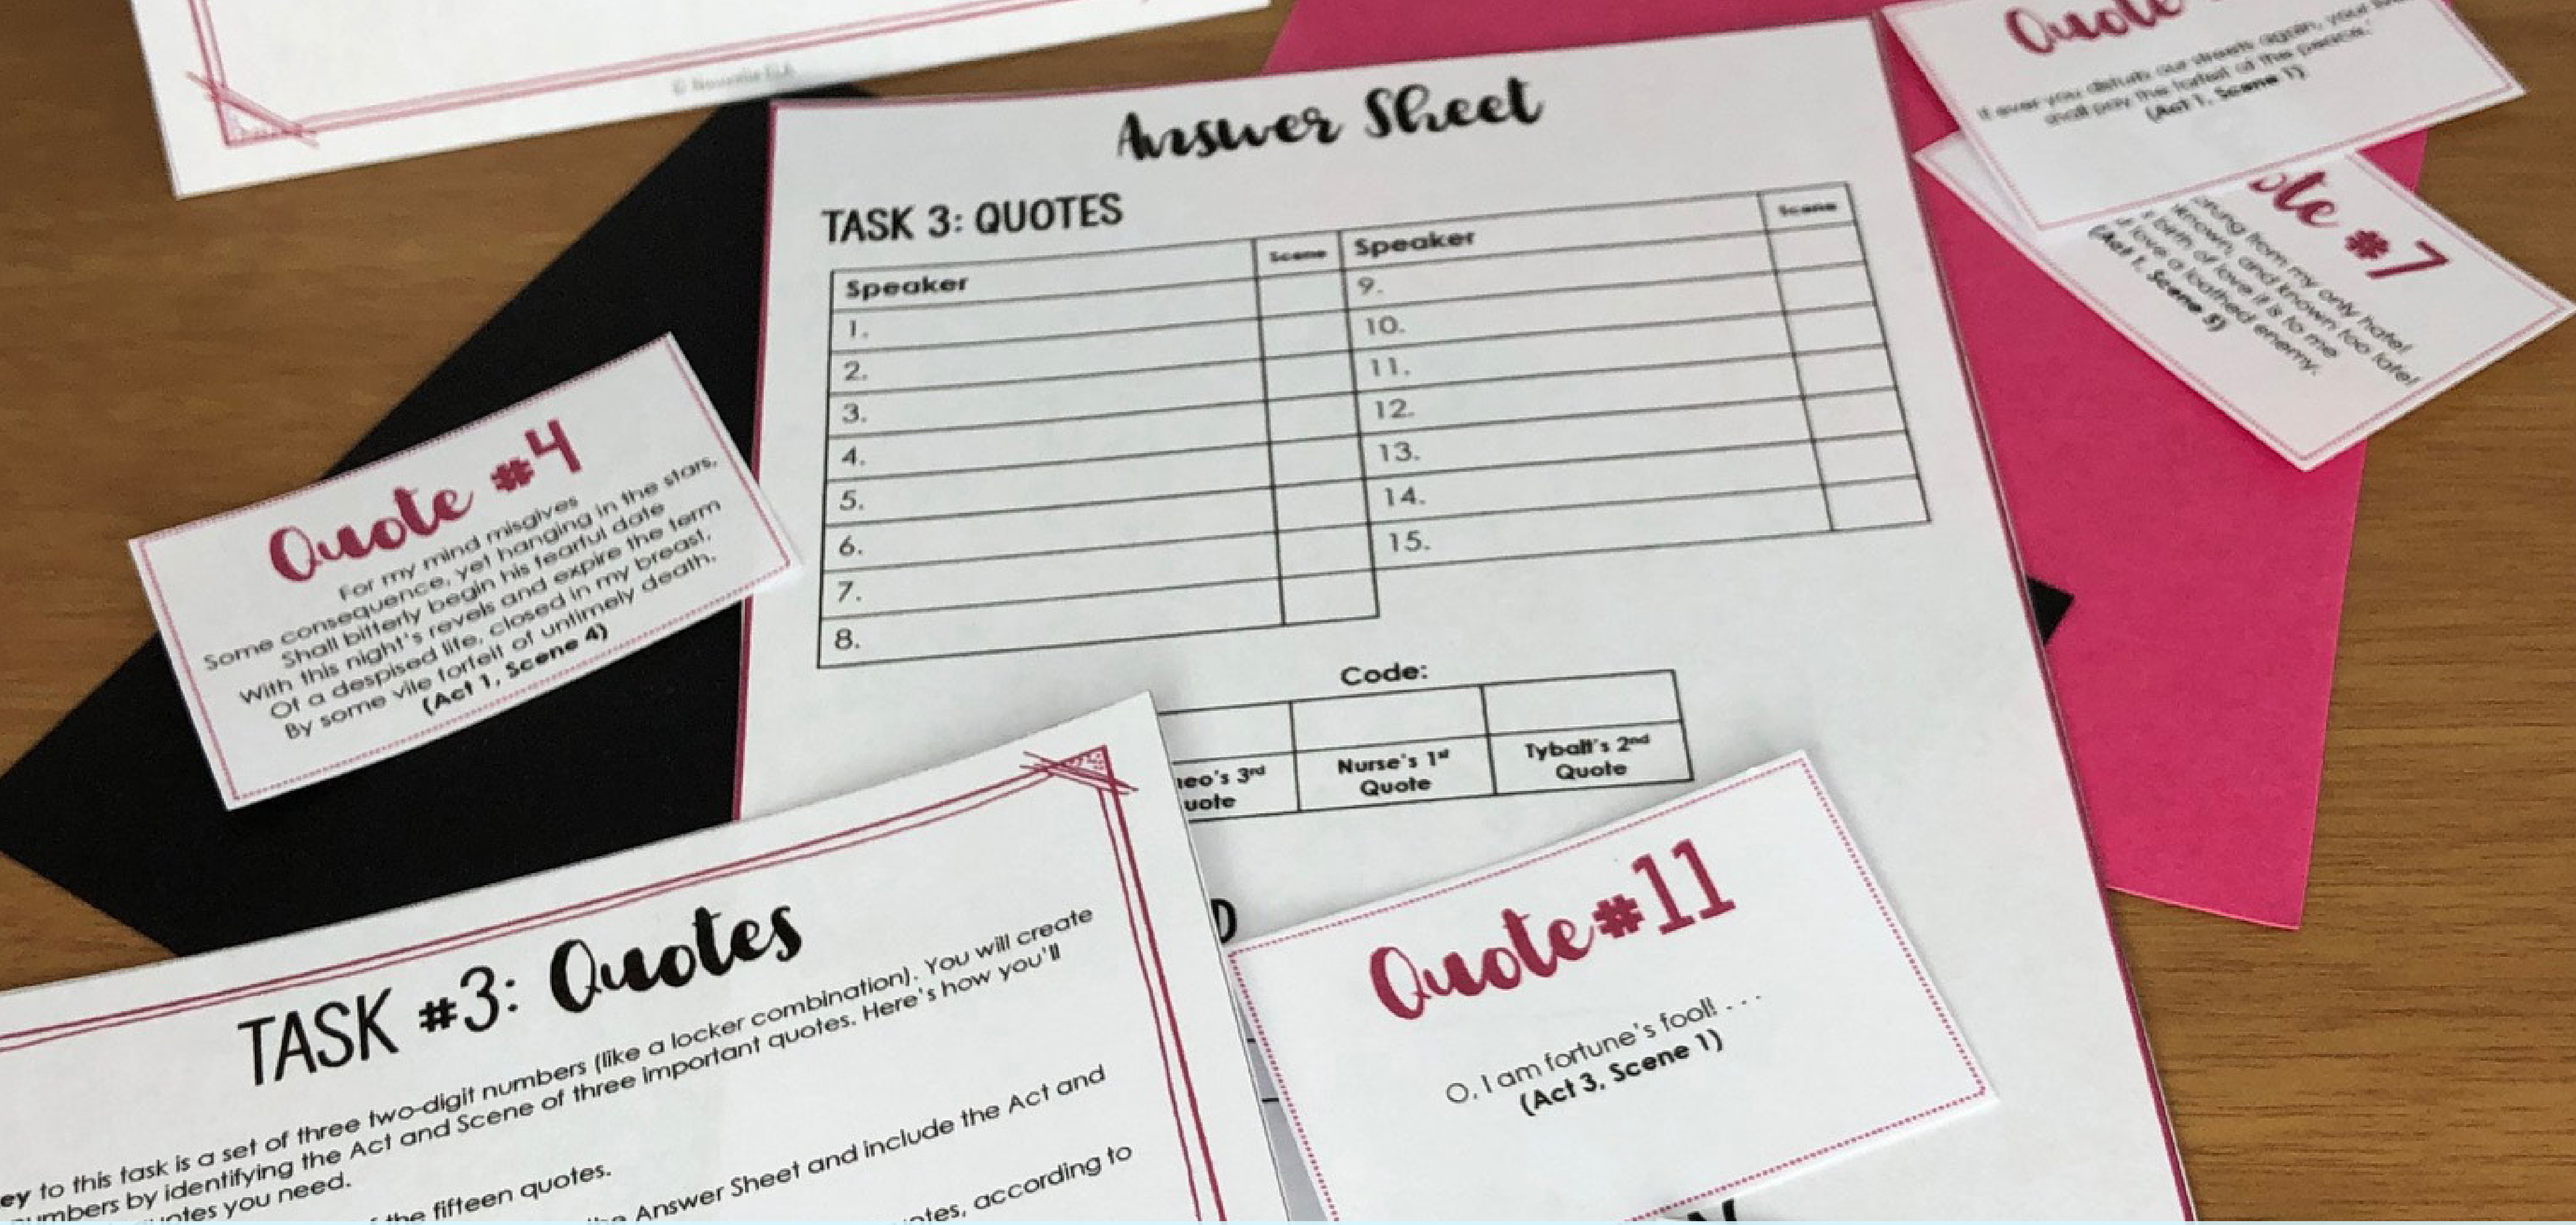


The four core activities help students review plot, characters, important quotations, and close reading skills.

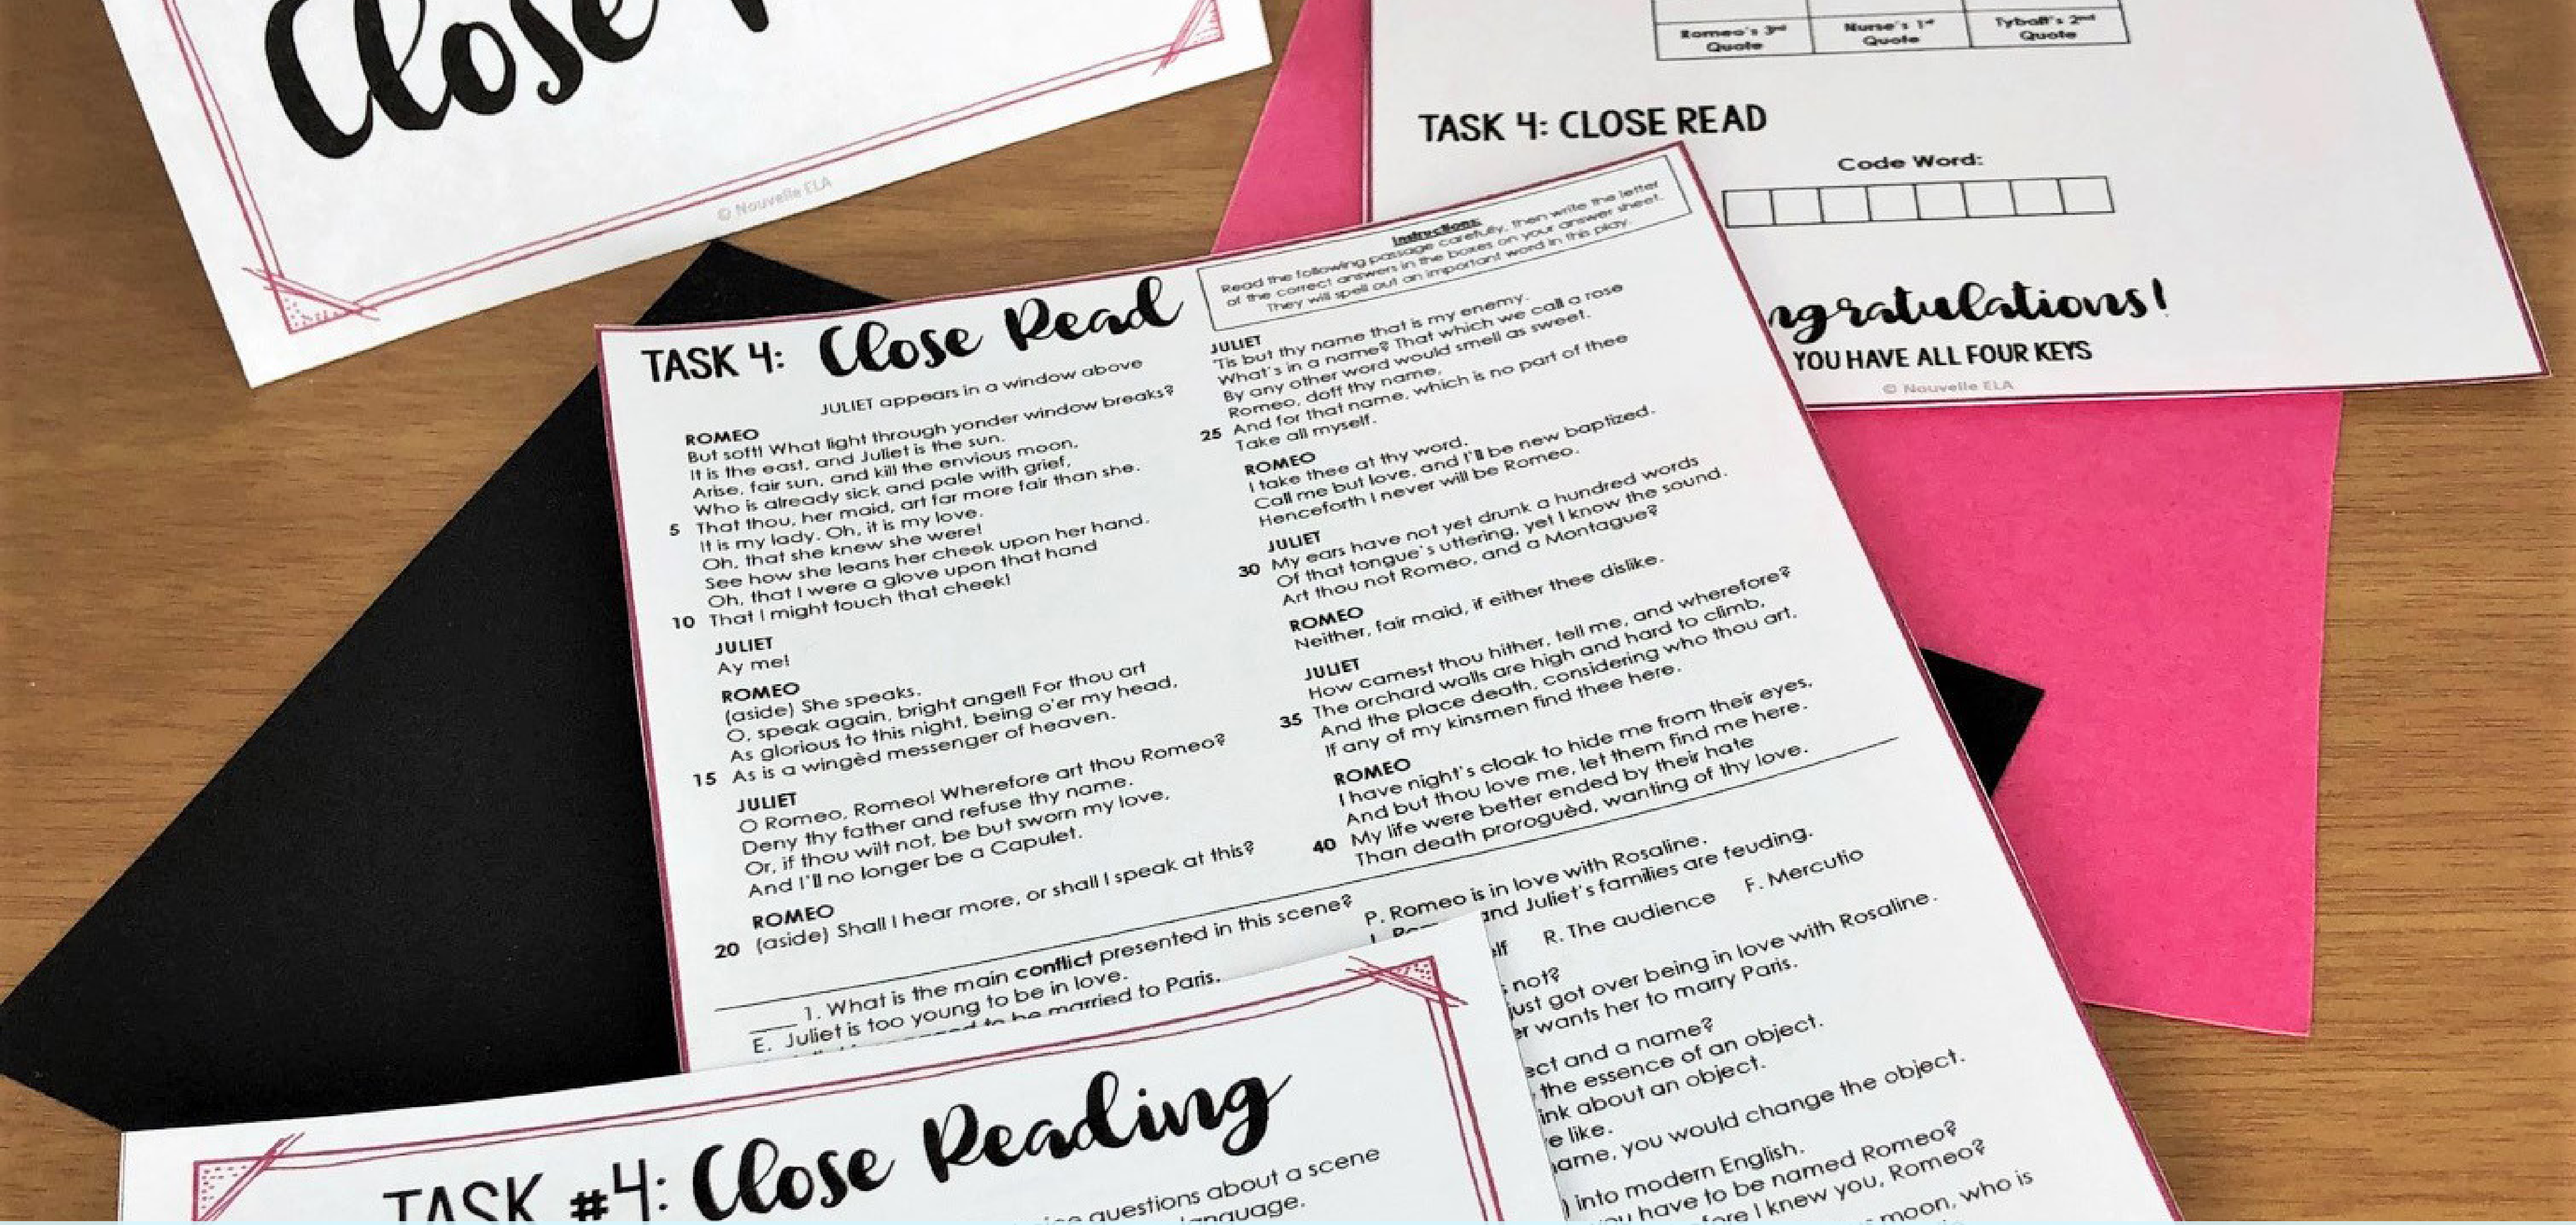
Task #1: Students sort plot points from the play.
The correct answer gives students a code. You can hide these clues around the room or keep groups at their desks.



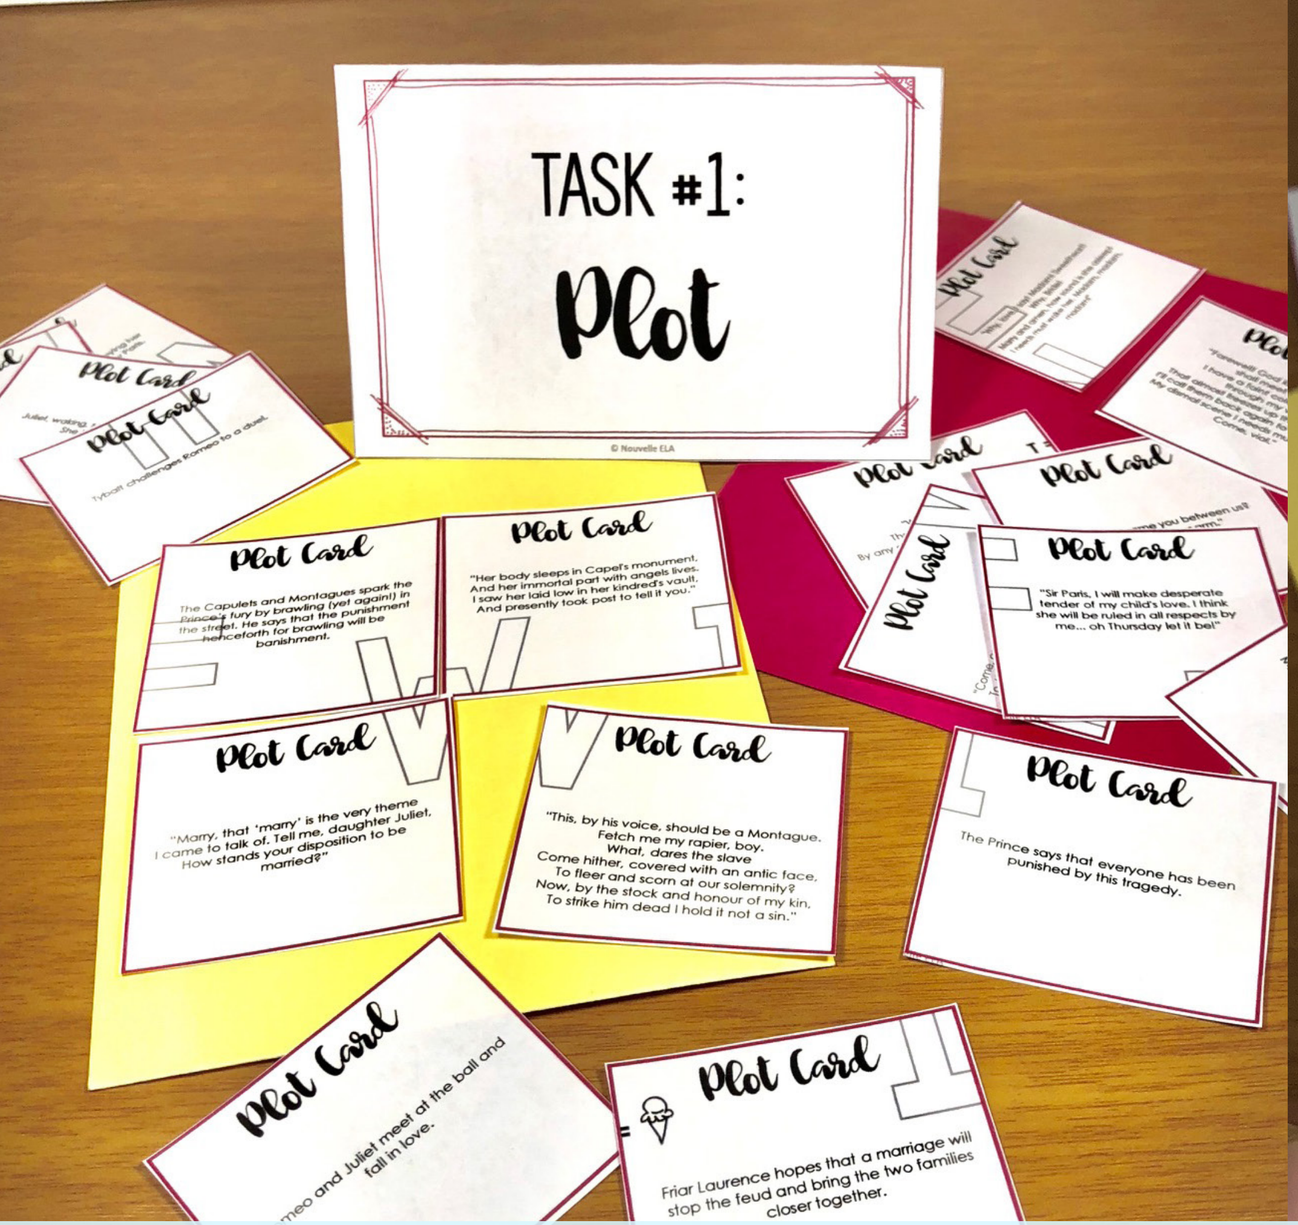
Task #2: Students identify characters based on their relationships and descriptions. When done correctly, this reveals a code word.

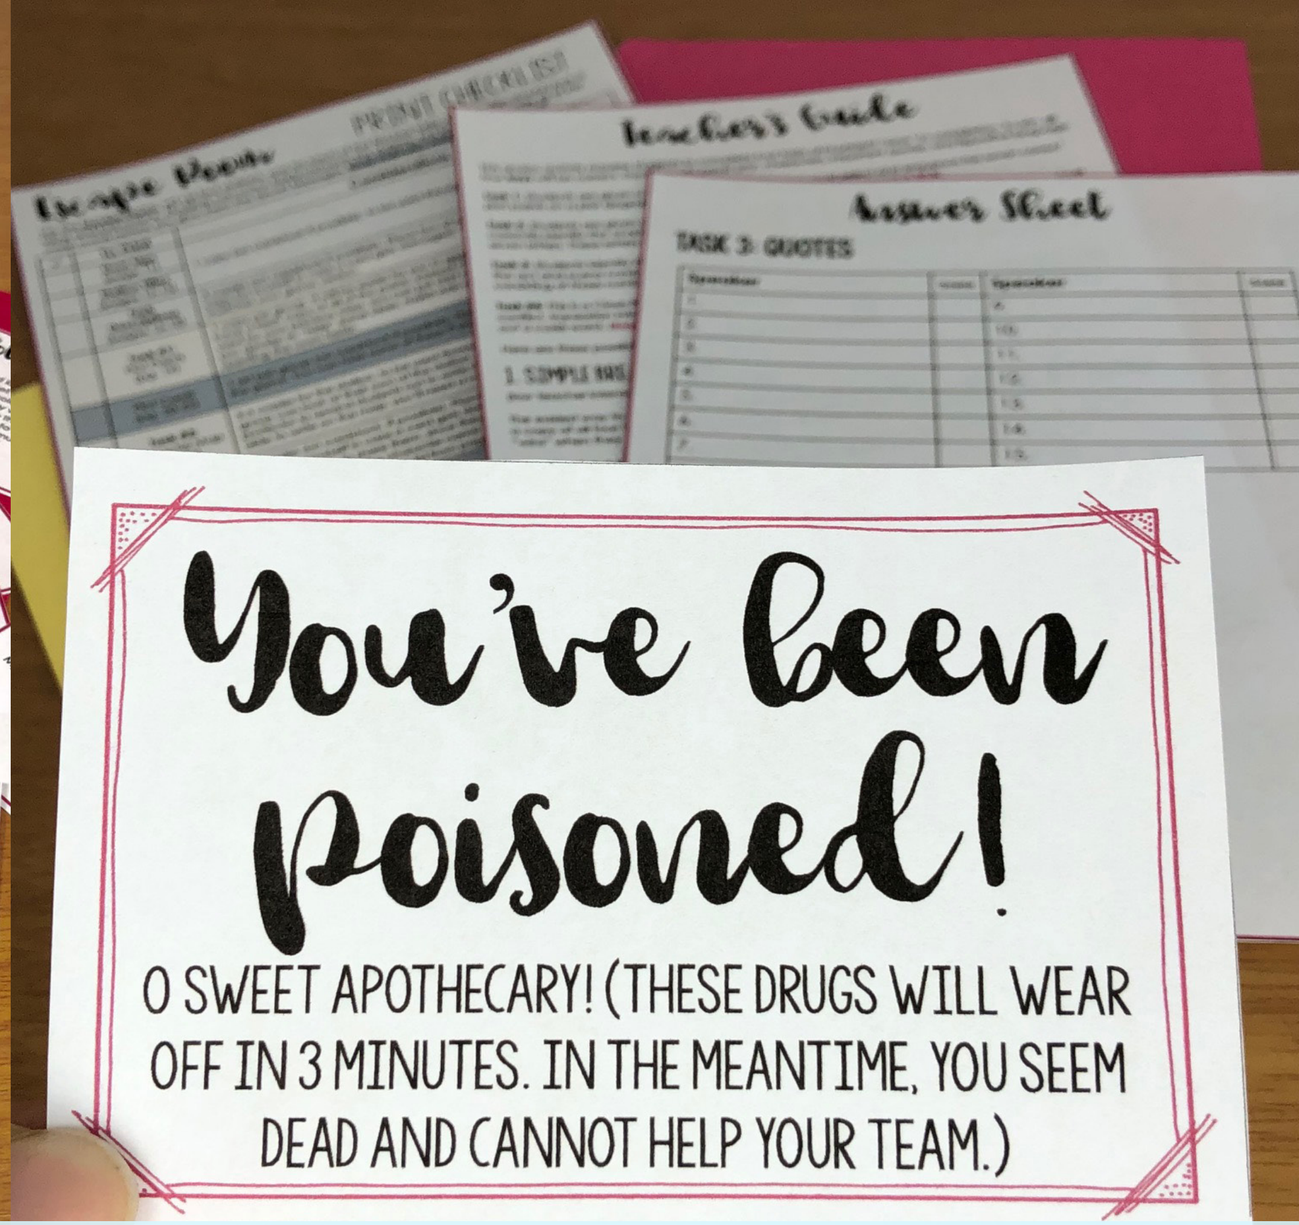


Task #3: Students identify speakers of important quotations. When done correctly, they get a combination. You may add a physical or digital lock if you want.

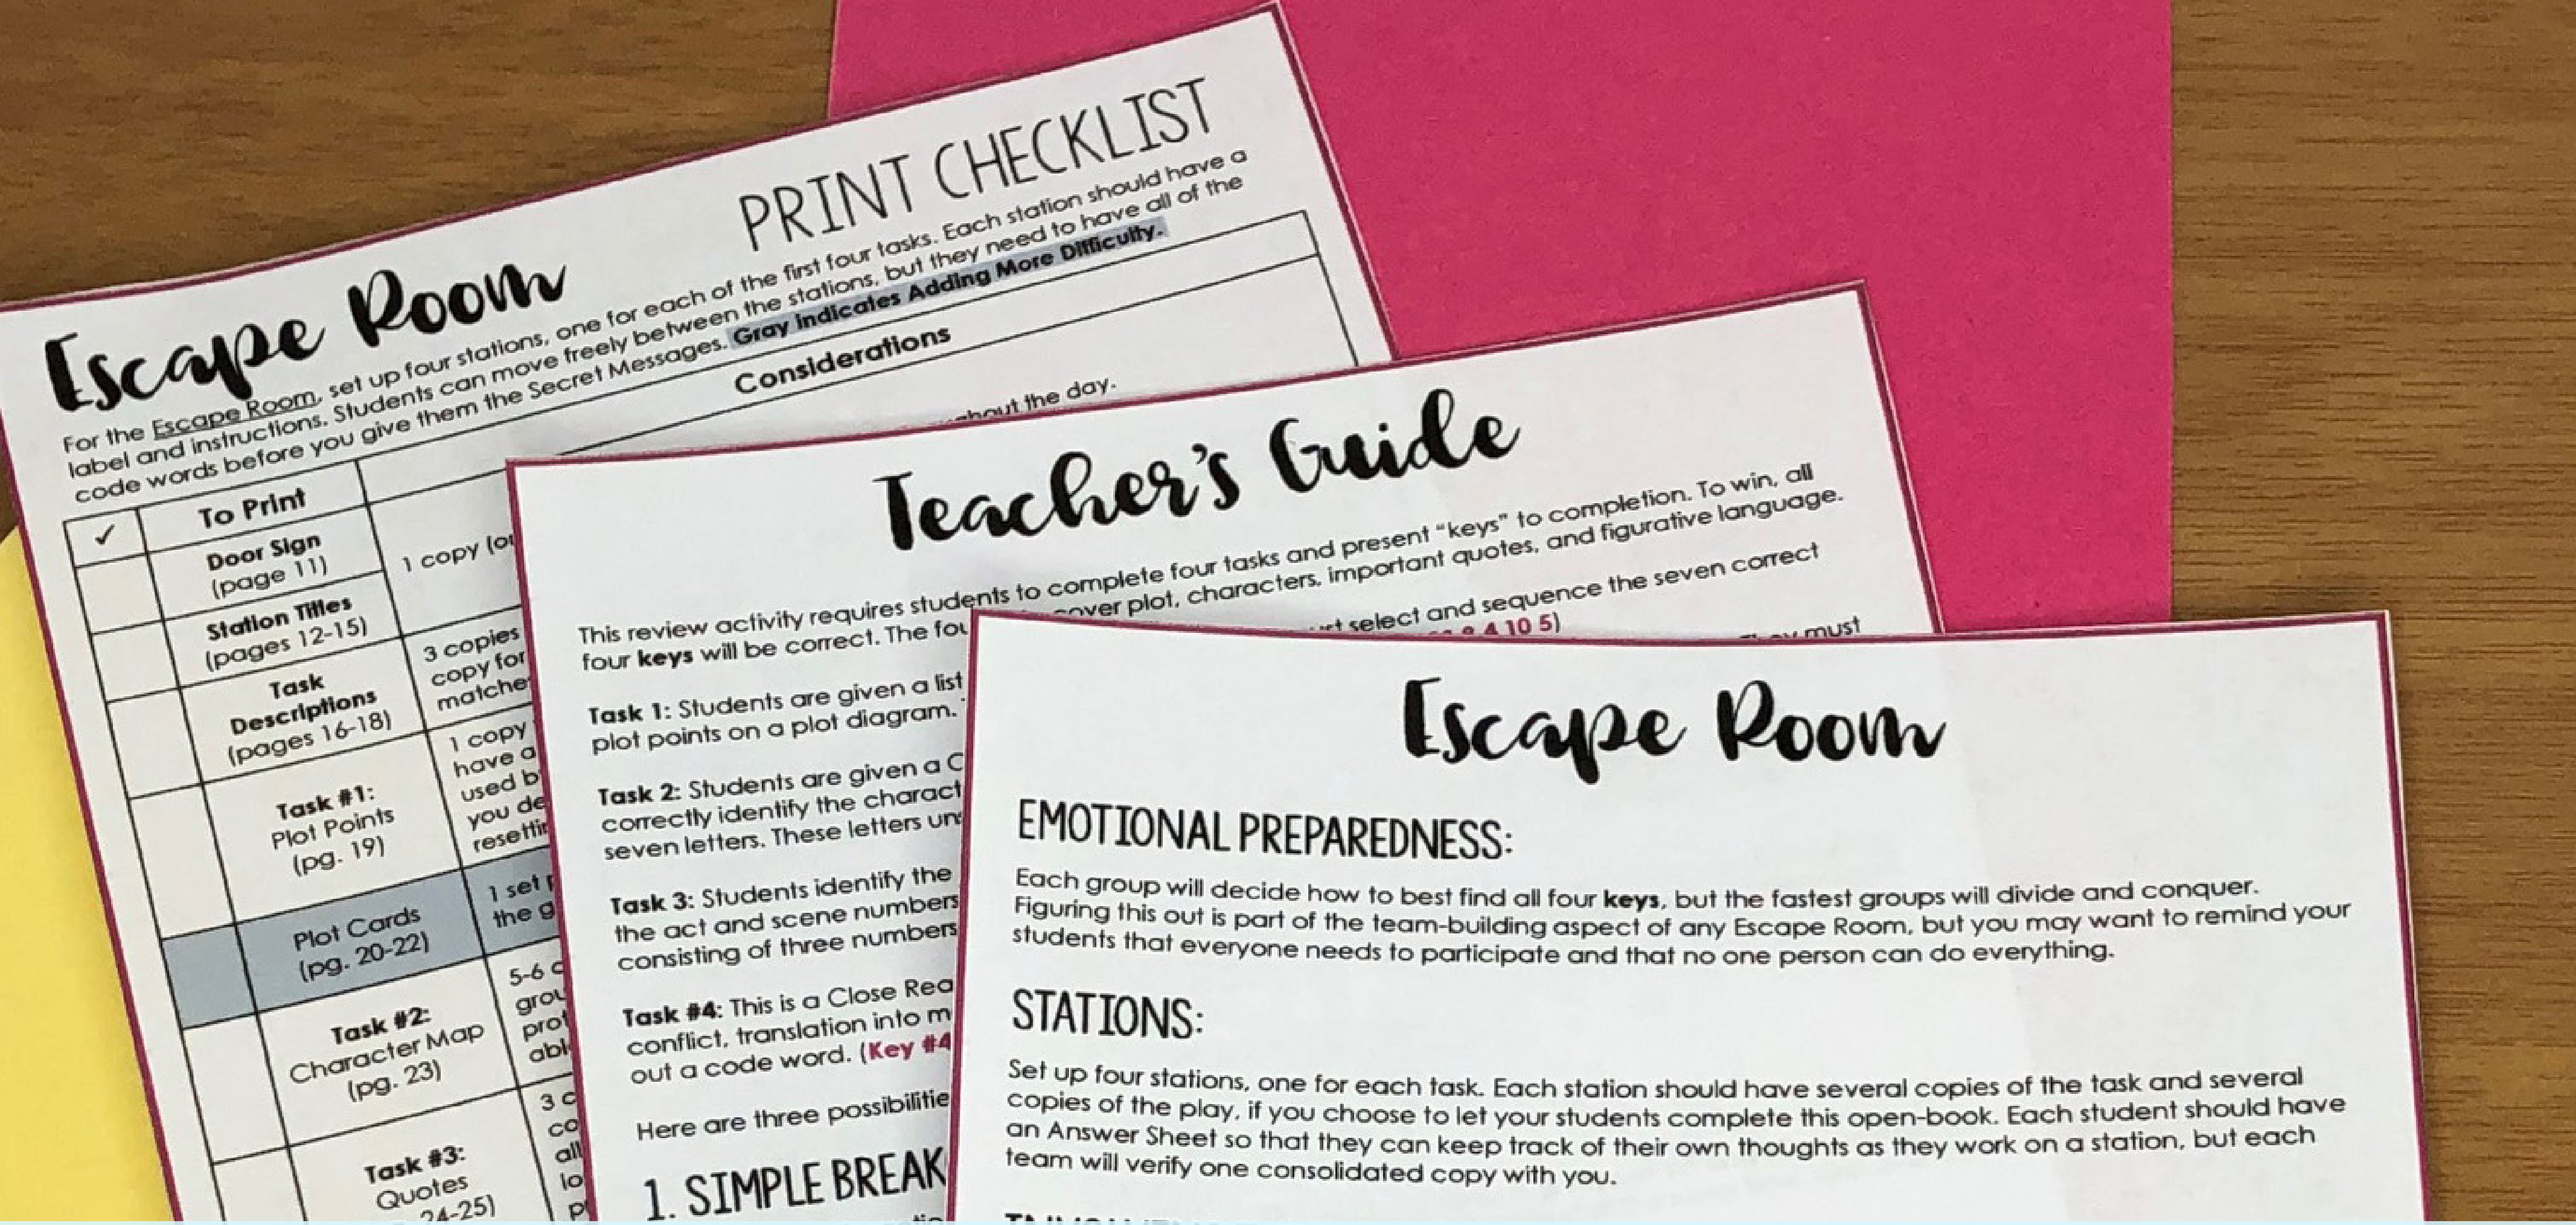


Task #4 is a Close Reading passage with multiple-choice questions. When completed correctly, students reveal a code word.





This resource includes options for adding difficulty, adding a Secret Message, and moderating "over participation" with an Oops! card you can employ.



Includes a full Teacher's Guide to help you prepare this game with confidence!
Everything is laid out step-by-step.
