Romeo & Juliet

DIGITAL ESCAPE ROOM

by Danielle @ Nouvelle ELA

This Digital Breakout activity is a review of Romeo and Juliet. Players visit a reading room to find clues and solve a Secret Code.

It has been designed to take 8th & 9th grade below-level students 45-60 minutes. This resource also includes a complete Teacher's Guide, extension activities, and an answer key.

Have fun!
Danielle @ Nouvelle ELA

TABLE OF CONTENTS

This is a digital version of my best-selling Romeo & Juliet Escape Room.

Romeo and Juliet Digital Escape Room.pdf

Editable Extension Activities.ppt

If you are doing this activity 100% digital, you can upload the extension activities to the closed learning platform of your choice. This includes the editable writing prompts, the questions for research and discussion, and the sources and resources pdfs.

(link and password provided in the resource)

This activity is perfect for reviewing Romeo & Juliet. It requires students to complete four tasks. Each task gives them a clue for the final Secret Code. The **Student Answer Sheet** has students enter these clues to make sure they actually complete the tasks. The four tasks cover plot and theme, characters, quotes, and a close reading activity. You can extend the secret quote into a longer analysis activity after the game. (These activities can be completed in any order) **There are two versions of the Plot task for differentiation.**

Task 1: Plot – Students choose the exposition, rising action, climax, falling action, and resolution from twelve options. **Version 2:** **Plot & Theme** – Ss analyze plot and theme in twelve examples from the text.

Task 2: Character Chart – Players input character names for each description.

Task 3: Quote Identification – Players identify the speaker for fifteen quotes. After each set of five, they get an illustration of a key scene in the play.

Task 4: Close Reading – Students answer multiple-choice questions about the Balcony scene.

Secret Quote – Students use the keys they've collected to help decode this quote. They get a reward video. After the game, you can have students complete a written response to this quote.

THE DIGITAL INTERFACE

TECHNOLOGY:

This breakout utilizes a website. Students progress through the levels by discovering passwords or hidden portals in each level.

For best results reading the texts, have students complete this activity on laptops or iPads.

You should run through any Escape Room/Breakout before presenting it to students.

MAIN FEATURES:

Here are the main features of the gameplay.

Click here anytime to see a list of characters.

Students navigate to four tasks and a final Secret Code from the main room.

THE DIGITAL INTERFACE

Each task opens as a new level. Points of Interest are highlighted when students scroll over them.

A

Which part of the plot does the following statement correspond to?
"Romeo and Juliet meet at the ball and fall in love."
(8) The exposition
(1) Rising Action

Read the cards carefully to find the correct combination to the safe. If yo...
this task you can **head back to the main room.**

Further clues and information pop up in a lightbox.

Give the number totals for...

The correct answer from Card A   Need a hint?   (of 7)

Type your answer here.

CHECK ANSWER

Students progress by answering questions at the end of each task. This will give them a clue to the final Secret Code.

Students can also get a hint if they need one. ☺

The final task is a Secret Code. The words and phrases students find throughout the game are color-coded. The game also autofills once students enter a letter. You can see that here with the letter "E."

This "Secret Code" is a quote about reading Shakespeare that you can have your students analyze as an extension activity.
